Accessibility statement for website name

This accessibility statement applies to <https://www.sofidel.com/>.

This website is run by Sofidel. We want as many people as possible to be able to use this website.

Feedback and contact information

We're always looking to improve the accessibility of this website. If you find any problems please contact us:

- email : webaccessibility@sofidel.com

We'll consider your request and get back to you in 30 days.

Technical information about this website's accessibility

We are committed to making our website accessible, in accordance with The Equality Act 2010 and with the Public Sector Bodies (Websites and Mobile Applications) (No. 2) Accessibility Regulations 2018.

Compliance status

This website is **partially compliant** with the [EN 301 549](#) "Accessibility requirements for ICT products and services", the European Standard and [Web Content Accessibility Guidelines version 2.2](#) AA standard.

Non-compliance with the accessibility regulations

- C.9.1.1.1 – Non-text Content: Non-text content is presented to users without an equivalent text alternative.

- C.9.1.3.1 – Info and Relationships: In some cases, information, structure or correlations conveyed by the presentation of pages cannot be determined programmatically (or are not available through text);
- C.9.1.4.3 – Contrast (Minimum): The visual presentation of text and images containing text does not always meet the minimum required contrast ratio, except for cases explicitly exempted by the applicable standards (e.g. logos).
- C.9.1.4.11 – Non-text Contrast: For some essential components, even in different states, the color contrast compared to adjacent elements does not exceed the ratio of 3:1;
- C.9.1.4.13 – Content on Hover or Focus: In some cases, when mouse pointer (hover) passing or keyboard focus make content visible and hidden, there is no mechanism available to hide additional content without moving the mouse pointer or keyboard focus, the pointer cannot be moved to additional content without disappearing or additional content remains visible until the hover or focus event is removed, the user deletes it or his information is no longer valid except for some exceptions;
- C.9.2.1.1 – Keyboard: Some features cannot be activated by keyboard (or similar input interface);
- C.9.2.2.2 – Pause, Stop, Hide: Some animations, flashing, sliding or self-updates of information started automatically, with a duration of more than five seconds or presented in parallel with other content, there are no mechanisms to stop or hide them;
- C.9.2.4.1 – Bypass Blocks: There is no mechanism to skip content blocks that repeat on multiple web pages;
- C.9.2.4.3 – Focus Order: In some web pages that can be browsed sequentially and in which the navigation sequence affects their meaning and functioning, some objects that may receive the focus do not receive it with an order that preserves the meaning and operation of it;
- C.9.2.4.4 – Link Purpose (In Context): The purpose of certain links cannot be determined by the link text or by the link text together with adjacent content;
- C.9.2.5.3 – Label in Name: For some user interface components with labels that include text or text images, the name read by the a.t., does not contain the text that is visually presented;
- C.9.4.1.2 – Name, Role, Value: In some cases, user interface components (including: module elements, script-generated links and components), name, role, state, property and values are incorrect or set, or the user a.t. are not warned when these attributes change;
- C.10.1.3.1 – Info and Relationships: In some cases, information, structure or correlations conveyed by the presentation of documents cannot be determined programmatically (or are not available through text);
- C.10.2.4.2 – Page Titled: Some documents do not have titles that describe the topic or

purpose.

You can configure the accessibility widget (overlay) to provide a partially or fully accessible experience with respect to these nonconformities.

For the solution to work correctly, the widget must be fully loaded and the adaptations activated. An incorrect configuration of the widget may reduce accessibility.

Enforcement Procedure

The Equality and Human Rights Commission (EHRC) is responsible for enforcing the Public Sector Bodies (Websites and Mobile Applications) (No. 2) Accessibility Regulations 2018 (the 'accessibility regulations').

If you're not happy with how we respond to your feedback, you can contact the [Equality Advisory and Support Service \(EASS\)](#).
